

Blueprint for Space

THE EVOLUTION OF SPACE TECHNOLOGY

Space exploration is still developing, yet it builds upon detailed work and the solution of complex problems that have taken place over decades.

Blueprint for Space looks at key achievements in the exploration of space. From the first attempts to reach orbit to the cold war days of the Space Race; exploration of the planets; the era of the Space Shuttle and efforts to establish a space station — a series of eight episodes each 30 minutes in length.
